

Starting With Stories

Join us at Gibson Elementary to find out how to help your child get a good start in school....

Dear Parents and Grandparents:

Starting with Stories is an opportunity to welcome newly registered kindergarten students and their families to their new school, sharing information on how best to prepare children for their Kindergarten experience.

At these sessions:

- Children will enjoy singing, playing with new friends and listening to stories
- Parents will get to know other parents and the Kindergarten teachers
- Parents will also discuss a variety of topics, including the importance of reading to your child.
- Families will receive free books to share with your children.
